

Pilot Awareness and Local Airspace Navigation

This presentation will review the fundamental procedures to help reduce midair collision hazards when operating in local airspace. Pilot Awareness can mitigate those risks inherent in conducting flight operations in a specific environment.

In addition, McGuire Air Force Base Military Safety Personnel will provide important information concerning local airspace composition and procedures to comply with during military intercept of an aircraft.

Directions: This presentation will be held on the first floor at the Fixed Base Operator (FBO) facility.
